

Environment and Natural Resources Trust Fund

2025 Request for Proposal

General Information

Proposal ID: 2025-173

Proposal Title: Boardwalk Over Boggy Land for Recreational Purposes

Project Manager Information

Name: Val Martin

Organization: City of Battle Lake

Office Telephone: (218) 864-0424

Email: cityclerk@battlerekemn.org

Project Basic Information

Project Summary: Construct a 400-ft long, 5-ft wide boardwalk over undevelopable city land giving walkers and hikers access to a boggy wildlife habitat while maintaining drainage considerations for low areas

ENRTF Funds Requested: \$148,000

Proposed Project Completion: December 31, 2026

LCCMR Funding Category: Small Projects (H)

Secondary Category: Land Acquisition, Habitat, and Recreation (G)

Project Location

What is the best scale for describing where your work will take place?

Region(s): NW

What is the best scale to describe the area impacted by your work?

Region(s): NW

When will the work impact occur?

During the Project

Narrative

Describe the opportunity or problem your proposal seeks to address. Include any relevant background information.

The City of Battle Lake wants to turn undevelopable city property into a recreational asset that people of all ages can enjoy. The property is comprised of high ground as well as wet, boggy land that collects rain and snow as well as stormwater. The low-lying area, with some enhancements, gives the city an opportunity to showcase a natural wetland habitat with its various flora and fauna. While creating a recreational asset, the city can ameliorate drainage challenges caused by ever-changing environmental conditions that dry/wet years and seasons raise. When completed, this project will provide learning opportunities for public school students as well childcare center which is located along the proposed trail.

What is your proposed solution to the problem or opportunity discussed above? Introduce us to the work you are seeking funding to do. You will be asked to expand on this proposed solution in Activities & Milestones.

Funding allows the construction of a 400-ft long, 5-ft wide boardwalk over the low-lying portion of city-owned property as part of enhancing a natural habitat on otherwise undevelopable land. By constructing a boardwalk over a boggy area of the property, we give community members and visitors an opportunity to experience a wetland habitat while protecting the land as a stormwater drainage area. The introduction of native plantings conducive to wet environments will not only provide a visual enhancement to the natural environment but will assist the city's goal of maximizing the use of drainage facilities as part of managing today's changing environment. With LCCMR small-project funding, the City of Battle Lake can quickly and efficiently implement plans to add a bog-walk trail conducive to recreational, ecological, and native habitat purposes. As the boardwalk will eventually connect to a local park and larger trail system, it expands outdoor recreational opportunities within the area along with connecting residential and commercial properties.

What are the specific project outcomes as they relate to the public purpose of protection, conservation, preservation, and enhancement of the state's natural resources?

The boardwalk increases public access for recreation in that it opens an otherwise inaccessible property to walkers and hikers, for children and adults. It is of ecological value in that its interpretive signage identifies the flora and fauna that exist in the wetlands and describes the symbiotic relationships that exist, thus serving an educational function. It serves a preservation purpose in that it protects a boggy area and its habitat. It enhances natural resources in that it links to a local park and eventually a city trail system.

Activities and Milestones

Activity 1: Funding Procurement

Activity Budget: \$1,875

Activity Description:

The first step will be funding procurement for the proposed project, with the property already owned by the City, and a 25% match committed by the City Council, funding for the remaining portions of the project will dictate the scope and proposed improvements. Funding is being pursued primarily through the LCCMR process, with local funding for additional trail components outside of the scope of this application.

Activity Milestones:

Description	Approximate Completion Date
Review funding alternatives and awards.	July 31, 2024

Activity 2: Boardwalk Design and Preconstruction Investigation

Activity Budget: \$16,875

Activity Description:

The proposed design and preconstruction investigation would be completed by the City's Engineer, and assisted by various Geotechnical and Structural Design team members. The design will finalize the alignment and location of the proposed boardwalk along with investigating the underlying materials for verification of the structure needed to support the proposed improvements.

Activity Milestones:

Description	Approximate Completion Date
Design completion, bidding or project procurement	October 31, 2024

Activity 3: Boardwalk Bidding and Construction

Activity Budget: \$129,250

Activity Description:

Following the completion of the design, the project will be publicly bid in accordance with Minnesota Statutes and awarded to the lowest responsible bidder. After award, the winning bidder will complete contracts to complete the tasks, and construction of the proposed boardwalk will commence. The proposed construction will be completed within the timeframes associated with this application, with completion by the end of 2026 allowing for access for the public to the proposed improvements following the construction completion.

Activity Milestones:

Description	Approximate Completion Date
Project Bidding and Construction	October 31, 2025

Long-Term Implementation and Funding

Describe how the results will be implemented and how any ongoing effort will be funded. If not already addressed as part of the project, how will findings, results, and products developed be implemented after project completion? If additional work is needed, how will this work be funded?

Construction of the boardwalk could begin as soon as funding is in place. Along with the boardwalk, there will be native planting conducive to the wetland habitat. This will start after the boardwalk is completed and will be overseen by a professional. Ongoing maintenance will become part of the City of Battle Lake's Capital Improvement plan and the City will be dedicated to keeping the structure in good condition and will also repair and maintain and needed.

Project Manager and Organization Qualifications

Project Manager Name: Val Martin

Job Title: City Clerk/Treasurer

Provide description of the project manager's qualifications to manage the proposed project.

Project Manager will be the fiscal manager and contact person for the project and working closely with Jade Berube, City Engineer who will be overseeing the project throughout the full process. Berube is a Professional Engineer and is contracted by the City of Battle Lake to work on public projects.

Organization: City of Battle Lake

Organization Description:

The City of Battle Lake is a municipality located in West Central Minnesota and Otter Tail County.

Administrative Use

Does your project include restoration or acquisition of land rights?

No

Does your project have potential for royalties, copyrights, patents, sale of products and assets, or revenue generation?

No

Do you understand and acknowledge IP and revenue-return and sharing requirements in 116P.10?

N/A

Do you wish to request reinvestment of any revenues into your project instead of returning revenue to the ENRTF?

N/A

Does your project include original, hypothesis-driven research?

Yes

Does the organization have a fiscal agent for this project?

No

Does your project include the pre-design, design, construction, or renovation of a building, trail, campground, or other fixed capital asset costing \$10,000 or more or large-scale stream or wetland restoration?

Yes

Do you propose using an appropriation from the Environment and Natural Resources Trust Fund to conduct a project that provides children's services (as defined in Minnesota Statutes section 299C.61 Subd.7 as "the provision of care, treatment, education, training, instruction, or recreation to children")?

No

Provide the name(s) and organization(s) of additional individuals assisting in the completion of this proposal:
